Comment Or Question Message: Kamala D. Harris,
California Attorney General:

I left you a voice mail today informing you of my ongoing complaint against the Palo Alto Police Department and the Santa Clara County District Attorney's Office related to the PAPPD's falsification of audio/video footage and taser gun activation data in order to conceal their unlawful assault of me and to falsely incriminate me of a crime. I have a federal lawsuit filed in the Northern District (San Jose Division) 5:09-cv-02655 LHK.

I have been providing SAAG Gerald Engler much of the evidence that proves my allegations, however neither he nor the Santa Clara County District Attorney have been willing to hold the culpable officers accountable.

and to falsely incriminate me of a crime. I have a federal lawsuit filed in the Northern District (San Jose Division) 5:09-cv-02655 LHK.

I have been providing SAAG Gerald Engler much of the evidence that proves my allegations, however neither he nor the Santa Clara County District Attorney have been willing to hold the culpable officers accountable.

As a result I find it necessary to bring my evidence and my grievances to the public in effort to right the wrongs and expose the violations of law committed by the PAPD and how no one in the justice system is willing to hold the PAPD accountable.

I have repeatedly requested an opportunity to present my evidence, yet no one wants to look at. Therefore I have been providing it piecemeal to both Mr. Engler and S.C. DA Jeff Rosen, yet neither person is willing to explain the obvious discrepancies in the audio/video footages and taser gun activation data.

I will be informing the public how the Santa Clara County District Attorney and the California Attorney General's Offices refuse to explain the missing audio/video footage and taser gun activation data in addition to the editing flaws on the various recordings.

Before I do I wanted to make sure that you know of my complaint and the evidence that I have for you may not have been made aware of it given that you have only been in office for four months.

Much of the evidence can be found on the court's PACER system as exhibits related to documents: 108, 109, 121, 132, 143 and 153.

Take special notice of document 121 which exposes the fact that the original taser cameras were sent to Taser International and destroyed prior to my criminal case being dismissed.

Thank you for your any help you provide in enforcing the laws of our state.

Mr. Ciampi: I want to acknowledge receipt of the latest CDs you mailed to me. I am continuing to review all of the materials you have sent. I have worked through the materials you sent through about the middle of October, 2009. I still need to review the materials you have sent after that date, including the most recent CDs. I will let you know of my decision as soon as I am able to complete my review.

Thank you for your patience.

Sincerely,

Dear Mr. Engler,

The Palo Alto Police Department sent my attorney some new edited versions of the MAV videos created on October 12 and 13, 1008 seven months after the first versions were created.

I mailed you copies of these versions on Thursday, I expect you to receive them on Tuesday or Wednesday at the latest.

You will find that these new videos verify that editing has taken place and that the depicted images corroborate my allegation that Officer Burger first fired his Taser gun at my face without warning while I was in a completely defenseless position of holding my hands in the air above my head.

Watermark, no watermark, if a jury is ever given the opportunity to view these images, they will know what you have known, they will know the truth, that the police covered up an unlawful assault and battery of me by editing video evidence.

I hope you understand that all I am trying to do is to reveal the truth and protect my freedom and safety. The more information I provide to more people the safer I am.

showing assault and battery of me by using video evidence.

I hope you understand that all I am trying to do is to reveal the truth and protect my freedom and safety. The more information I provide to more people the safer I am.

On Tuesday December 8, 2009 at approximately 7:00pm at least possibly two undercover Palo Alto Police officers were conducting surveillance on me while I was at the University Ave Starbucks.

On Thursday December 17, 2009 at approximately 9:30 pm I was again at the University Ave. Starbucks. I was sitting outside in the patio area alone when two Palo Alto Police Officers arrived and sat down at a table next to me. In about three minutes six more uniformed Palo Alto Police Officers arrived took the remaining three tables and chairs literally boxing me in the patio area preventing me access to the exit without having to come in contact with the officers. The officers remained there for approximately 30 minutes.

On Monday December 21, 2009 there was a Palo Alto Police Patrol Car staked out next to my vehicle at approximately 8:50pm to 9:30pm.

I honestly believe that the officers who have committed the crimes against me will not allow me to bring my civil case to trial. One way or another, either directly or indirectly through others, they will do whatever they need to do to avoid being prosecuted. If you think that too far fetched, Chicago police officer Jerry Finnigan was plotting kill up to four fellow officers who were going to testify against him until another officer Keith Herrera informed the FBI of Finnigan's intentions.

Unless someone in the Justice System steps up to the plate, and has the courage to reveal the truth these officers will get away with some of the most egregious violations of our State

Mr. Ciampi: I thank you for your patience while I review your case. I know that the delay is frustrating to you. But please be assured that I have not forgotten about it. I have reviewed quite a bit of the material you sent, but still have much more to look at. Unfortunately, I also have many other cases and duties to attend to in my capacity as Senior Assistant Attorney General. It is not at all unusual for our review of criminal matters to take as long as this case has. My regret is in telling you that I thought I could complete the review much sooner. I was wrong, and I apologize.

I am committed to a thorough, fair and unbiased review of your case based on the evidence. You should expect nothing less. Of course, I can make no representations as to what our ultimate decision will be. I will notify you as soon as my review is complete. At this point, I am reluctant to try to give you a target date since I missed my past estimate so badly. However, I will be able to devote some attention to your case next week.

Sincerely,
Gerald A. Engler

Dear Mr. Engler,

I can understand your skepticism as to my account of the events which occurred on 3/15/08 and your reluctance to pursue charges against the officers given the current falsified video footage.

With that said, the ability to recover the actual video footage exists. If you truly want to know the the truth as to what happened, obtain the original hard drives and recording disks from the MAV systems, MAV servers and Taser CAMs and recover the original video footage.

*Media Investigator is the best all-in-one file recovery program available today. Some of our competitors have created many different programs to recover your files ♦ one for images, **one for videos**, one for hard drives, one for memory cards, etc.*

*With Media Investigator, you can **recover ANY file type** (i.e. JPG, AVI, ZIP, MS Office, Open Office, MP3, etc) on **ANY drive type** (hard drive, USB drive, CD, DVD, flash drive, memory card, etc).*

I have to believe that should and once you recover and view the original video footage

I have to believe that should and once you recover and view the original video footage you will be eager to prosecute the culpable officers for what they did to me.

Another very simple and straight forward means to prove or disprove my allegations is to download Temores' and Burger's Taser guns to obtain the actual deployment and activation data. As already proved, the Data Files provided to the DA were falsified. Coupled with analyzing the watermark on the MAV videos, my allegations shall be proved true.

Sincerely,

Tony Ciampi

As you will recall when we spoke in June, I mentioned that it would take some time to review all of the material you have sent. Based on my current schedule, I hope to complete my review by the first of September, if not earlier.

Thank you for your patience.

Comment Or Question Message: I have made several official complaints to Attorney General Edmund G. Brown Jr. regarding the fact that several members of the Palo Alto Police Department falsified four audio/video recordings and two Taser gun Data Port Data Files in order to conceal their fellow officers' crimes against me and simultaenously wrongfully incriminate me of a crime.

I have been in communication with Senior Assistant Attorney General Gerald A. Engler for over eight months requesting that the Attorney General's office conduct an investigation and prosecute the culpable officers and Santa Clara County District Attorney Staff of the following crimes: 118(a); 118.1; 132; 134; 141(b) and 182 (1-5).

I have provided Mr. Engler with dozens of pieces of evidence verifying my allegations.

I have demonstrated that Santa Clara County District Attorney Dolores Carr refuses to hold the officers accountable because she refuses to investigate the evidence, such as analyzing the watermark on the MAV videos. I have proven that the crime lab has prepared a fraudulent analysis of the Taser-CAM videos.

I have made numerous requests to Mr. Engler that the Attorney General's office:
analyze the watermark on the two MAV videos;
obtain the original MAV videos;
obtain the original Taser-CAM videos on MPEG4 files;
download the data ports from the Taser guns;

After eight months, Mr. Engler still does not answer any of my questions of whether he or the Attorney General intend to contact an objective and thorough investigation of my complaint about the SANTA CLARA COUNTY DISTRICT ATTORNEY AND THE PALO ALTO POLICE DEPARTMENT.

I would like an answer one way or another.

Attorney General Edmund G. Brown Jr. are you going to investigate my complaint and hold the culpable Palo Alto Police Officers and Santa Clara County District Attorney Staff accountable?
